# **Employee Onboarding & Asset Management CRM Project**

# **Phase 4: Process Automation (Admin)**

#### 1. Validation Rules

### (a) Employee Joining Date Not in Past

- 1. Go to Setup  $\rightarrow$  Object Manager  $\rightarrow$  Employee\_c  $\rightarrow$  Validation Rules  $\rightarrow$  New.
- 2. Rule Name: JoiningDateCheck
- 3. Formula:
- 4. Joining Date c < TODAY()
- 5. Error Message: "Joining Date cannot be before today."
- 6. Error Location: Joining Date field.

# (b) Employee cannot be "Active" unless all tasks completed

- 1. Go to Employee c Validation Rules  $\rightarrow$  New.
- 2. Formula:

```
AND(
```

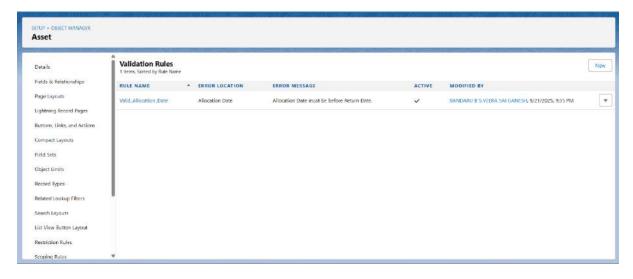

```
ISPICKVAL(Status__c, "Active"),
Incomplete_Tasks__c > 0
```

3. Error Message: "Employee cannot be Active until all tasks are completed."

#### (c) Asset Allocation Date before Return Date

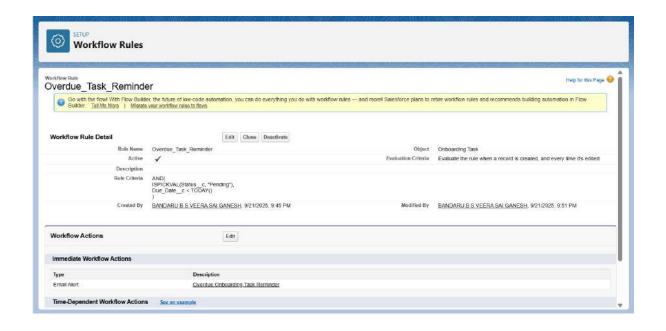

- 1. Go to Asset  $c \rightarrow Validation Rules \rightarrow New$ .
- 2. Formula:
- 3. Return\_Date\_\_c < Allocation\_Date\_\_c
- 4. Error Message: "Return Date cannot be earlier than Allocation Date."

# 2. Workflow Rules (basic automations)

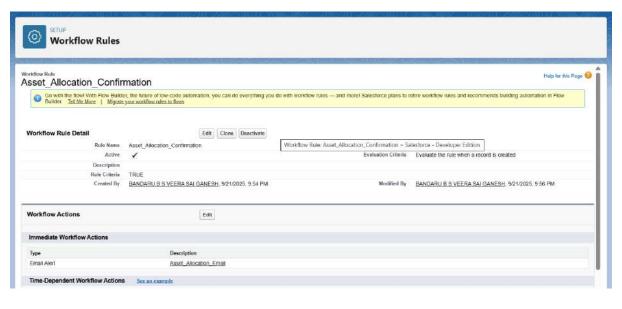

### Reminder for overdue Onboarding Task

- 1. Setup  $\rightarrow$  Workflow Rules  $\rightarrow$  New Rule.
  - o Object: Onboarding Task c.
  - o Criteria: Status c = "Pending" AND Due Date <math>c < TODAY().
- 2. Action  $\rightarrow$  **Email Alert**  $\rightarrow$  Send to Assigned User.

#### **Asset Allocation Confirmation Email**

- 1. Setup  $\rightarrow$  Workflow Rules  $\rightarrow$  New.
  - o Object: Asset\_c.
  - o Evaluation: Created.
- 2. Action  $\rightarrow$  Email Alert  $\rightarrow$  IT Admin + Employee.

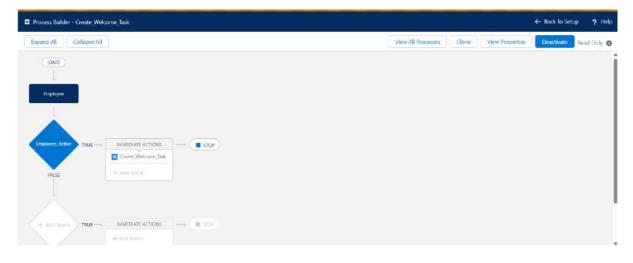

### 3. Process Builder (advanced)

### Auto-create Welcome Task when Employee becomes Active

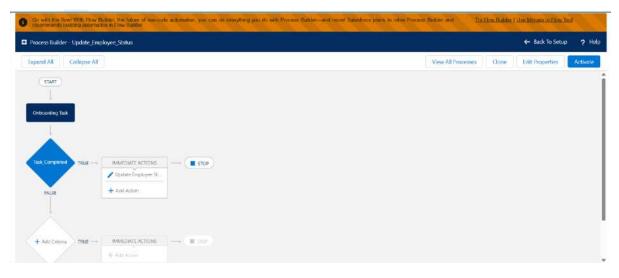

- 1. Setup  $\rightarrow$  Process Builder  $\rightarrow$  New  $\rightarrow$  Object: Employee\_c.
- 2. Start: when record is updated.

- 3. Criteria: Status\_c = "Active".
- 4. Action: Create a Record → Onboarding Task c.
  - o Task Name: "Welcome Session".
  - o Assigned To: HR Manager (lookup).
  - o Related Employee: [Employee\_c].Id.

### Auto-update Employee Status when all tasks done

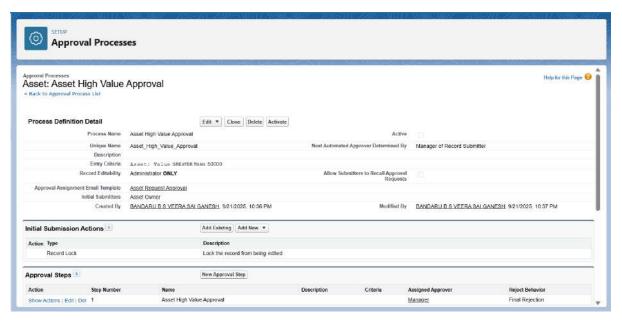

- 1. Setup  $\rightarrow$  Process Builder  $\rightarrow$  New  $\rightarrow$  Object: Onboarding Task\_c.
- 2. Start: when record is updated.
- 3. Criteria: Status = Completed.
- 4. Action: **Update Records** → Employee\_\_c.Status\_\_c = "Active" (only if all tasks are done use Rollup summary or Flow helper).

### 4. Approval Process

### Asset Request > ₹50,000

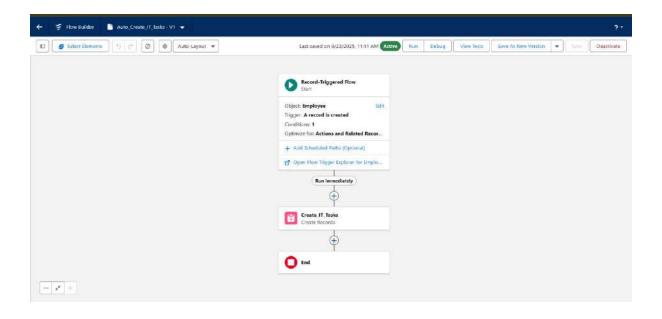

- 1. Setup  $\rightarrow$  Approval Processes  $\rightarrow$  New  $\rightarrow$  Object: Asset\_c.
- 2. Entry Criteria: Value c > 50000.
- 3. Approvers: Department Manager  $\rightarrow$  Then HR Manager.
- 4. Actions:
  - $\circ$  On Approval  $\rightarrow$  Update Asset Status = Assigned.
  - o On Rejection  $\rightarrow$  Email HR.

### 5. Flow Builder (powerful automation)

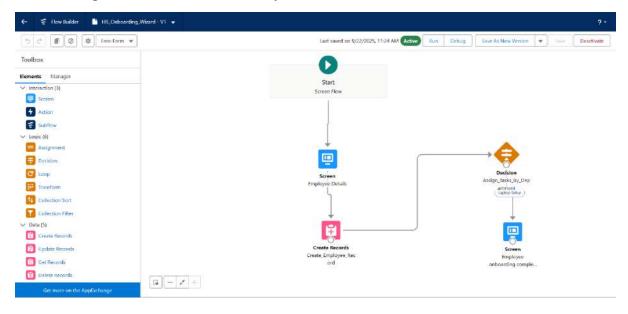

#### (a) Record-Triggered Flow → Auto-create IT tasks when Employee created

- 1. Setup  $\rightarrow$  Flows  $\rightarrow$  New Flow  $\rightarrow$  **Record-Triggered**.
- 2. Object: Employee c.
- 3. Trigger: On Create.
- 4. Condition: Department\_c = "IT".
- 5. Action: Create Records → Multiple Onboarding\_Task\_\_c (Laptop Setup, ID Card, Orientation).

### (b) Screen Flow → HR Onboarding Wizard

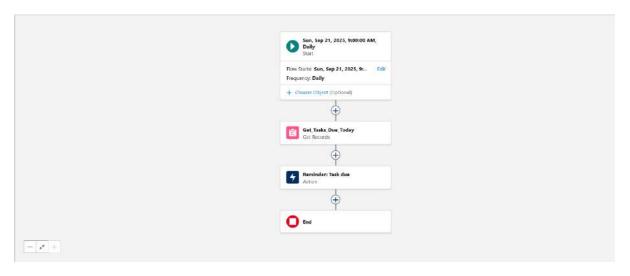

- 1. Flow  $\rightarrow$  New  $\rightarrow$  Screen Flow.
- 2. Add Screen Elements → Employee Details, Department, Manager.
- 3. Save Employee\_c record.
- 4. Assign related tasks automatically.

# (c) Scheduled Flow $\rightarrow$ Daily Task Reminders

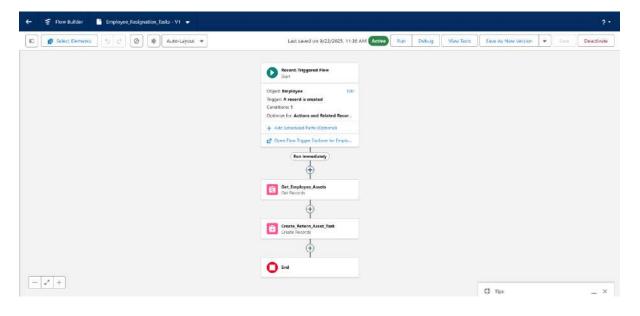

- 1. New Flow  $\rightarrow$  **Scheduled**.
- 2. Run daily at 9:00 AM.
- 3. Query Onboarding Task c where Due Date c = TODAY.

4. Send Email/Notification.

# (d) Auto-launched Flow → Employee Resigned

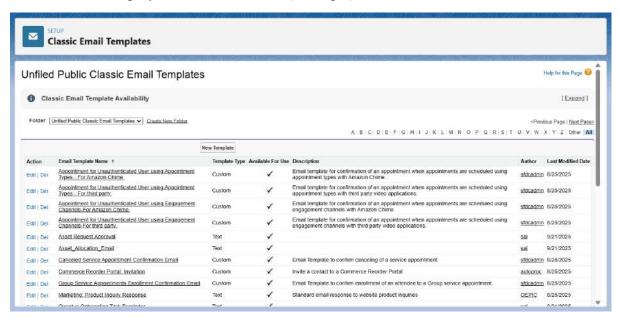

- 1. Flow  $\rightarrow$  New  $\rightarrow$  **Record-Triggered**.
- 2. Object: Employee c.
- 3. Trigger: On Update  $\rightarrow$  If Status = "Resigned".
- 4. Action: Create related "Return Asset" tasks.

# 6. Email Alerts

- Setup  $\rightarrow$  Email Alerts  $\rightarrow$  Create:
  - o Onboarding Reminder (Assigned User).
  - Asset Allocation Confirmation (IT + Employee).

o Employee Activation Email (Manager).

### 7. Field Updates

- If Employee = Resigned → Update Assets to "Return Pending".
- On Task Completion → Update Task Completion Date.

#### 8. Custom Notifications & Tasks

- 1. Setup → Notification Builder → New Custom Notification → "Employee Onboarding Update".
- 2. Add to Process/Flow: Notify Manager when Employee becomes Active.
- 3. Tasks: Auto-create HR follow-up tasks (e.g., "Policy Training").
